WORK EXPERIENCE

Webskitters Technology Pvt. Ltd. — Application Developer, Backend

May 2022 – June 2026

- Built and maintained 500+ REST APIs across ed-tech, healthcare, logistics, and fintech.
- Improved MongoDB schemas, indexing, and query performance, reducing average response time by 70%+.
- Built a modular NestJS architecture from a Node.js MVC codebase and standardized modules for easier maintenance.
- Implemented Redis caching, Socket.io real-time features, and BullMQ/Agenda queues for webhook processing and notifications.
- Built and deployed serverless functions for scheduled and event-driven tasks, reducing infrastructure overhead.
- Integrated 5 payment gateways (Stripe, Razorpay, Cashfree) with invoice generation and payout reconciliation, processing ₹50L–₹2Cr+ in transaction volume.
- Set up observability across production services using Winston, Sentry, and SonarQube to improve issue detection and code quality.
