CAREER SUMMARY

Aspiring B.Tech. student from SOA University, Bhubaneswar, specializing in Computer Science and Engineering with a passion for software engineering. I possess strong problem-solving and analytical skills, with proficiency in coding and networking skills. I am committed to excellent communication and collaboration, and I have a passion for continuous learning and taking initiative. Seeking an opportunity to gain knowledge and experience in an innovative organization renowned for its transformative impact on the industry. I highly value career growth, creative colleagues, and the chance to contribute to an incredible journey.

EDUCATION

- **Siksha 'O' Anusandhan University (ITER)** — **Jun 2025**
  Bachelor of Technology in Computer Science Engineering — Bhubaneswar, India
- **Kendriya Vidyalaya, IIT Kharagpur** — **Apr 2021**
  Senior Secondary Education (Secured 78.9%) — Bhubaneswar, India
- **Kendriya Vidyalaya, IIT Kharagpur** — **Apr 2019**
  Matriculation (Secured 81.8%) — Bhubaneswar, India

PROJECTS

SortEase – A hassle-free file management script | *Python, OS Module, Shutil Module*

- Utilized the OS and Shutil modules to scan, sort, and move files efficiently.
- Implemented support for customizable categories (e.g., Images, Documents, Videos, etc.).
- Added error handling to prevent overwriting or misplacement of files.
- Enhanced functionality by allowing automatic organization on system startup using task scheduling.

SkyCast – A simple and elegant weather forecasting app | *Python, Flask, OS Module*

- Search by City Name – Users can enter a city name to get live weather details.
- Real-Time Weather Data – The app fetches live data from a weather API.
- Temperature & Conditions Display – Shows temperature, humidity, wind speed, and weather description.
- Responsive UI – Designed using Bootstrap for mobile and desktop compatibility.
- (Optional) Search History – Store previous searches in a database for quick access.

SKILLS

- **Languages:** Python, Java, HTML, CSS, MySQL
- EFFECTIVE COMMUNICATION, GOOD ADAPTABILITY, ACHIEVEMENT ORIENTED, TIME MANAGEMENT
- PROBLEM SOLVING, CREATIVITY & INNOVATION

INTERNSHIPS

AWS Cloud Management Intern — *Nivedita Infotech*

During this internship, I built a simple image recognition system using cloud tools. The project could take an image as input and identify what was in it by running it through a trained recognition model. I worked on setting up the cloud environment, connecting the model to a basic interface, and testing the system with different images to check its accuracy. This helped me understand how cloud resources can be used to run and manage real-world AI applications.

EXTRA CURRICULAR ACTIVITIES

- Represented my state culture in NCC.
- Active participation in public speaking, debates, or group discussions.
- Passionate about photo editing, videography, and photography.
